

Why iplicit?

As the winner of the 2020 Accounting Excellence Software Awards, iplicit represents the best in SaaS, cloud-based accounting software for the small and medium-sized business. But don't just take our word for it, see what our customers have to say...

“API was a key criteria for us; we needed to choose a solution that could integrate seamlessly with other systems – not just the one we'd built but others that we use within the company too.

Kristian Salter, Chief Financial Officer at Fireco

“We used to invoice out of Sage. Unfortunately, the information had to be manually keyed in. A team of six used to take about one and a half days to key in all those invoices. Now, with a team of four, it takes two hours to generate those invoices and send them out.

Narinder Uppal, Finance Director, The Recruitment Group

“iplicit is easily saving the union's finance team 30 hours a week

Michael Blades, Head of Finance, The Students' Union at UWE

“One of the reasons why I chose iplicit was because it was clear to see how the system can scale with us.

Garry Mumford, Managing Director, Insight Associates

“The real-time reporting has been business-changing. We've been able to consolidate all the businesses at once so we can grab very realistic and up-to-date snapshots at a moment's notice.

Sarah Smith, Group Operations Director, A-One Insurance

iplicit

Powerful Accounting Software

Who do we help?

iplicit is a true Cloud Accounting solution ideal for the frustrated on-premise software user, and organisations that have outgrown entry-level software.

We provide analysis, seamless integration, and flexibility for medium-sized organisations spanning a variety of industries, including the not-for-profit, recruitment, education, and accountancy sectors.

iplicit is the natural choice for organisations seeking to 'step up' to next generation finance software.

“ We’ve had four accounting systems over the past 30 years and no migration was ever as smooth or as quick as the experience we had with iplicit.

Ian Newman, Director, Corrotherm

What do we do?

iplicit provides greater flexibility and enhanced levels of reporting, integrates into other cloud applications, and offers a seamless migration path from your existing system.

Cloud based Software - Our true-cloud architecture ensures that as long as you can access the internet, you can connect to our system.

Real Time Reporting - No more constraints! Unlimited levels of analysis, providing one version of the truth.

Built for Integration - Whether into your bank, HMRC, Excel or other company systems, our API ensures a smooth workflow and no more siloed data.

Built for Rapid Implementation - Be up-and-running in days, with assistance and training from our dedicated team.

Consolidation - A single unified platform for your multi-entity and multi-currency accounting and consolidation needs.

Powerful Accounting Software

Empower your organisation to deliver efficiency and improve performance with iplicit's feature-rich functionality.
